Full job description

Your new company

Reputable local government council is seeking a Senior Infrastructure Design Engineer to join their team on a permanent basis.

Your new role

You will be responsible for delivering infrastructure-related design projects including detailed design, reviews and documentation for, but not limited to roads, stormwater and drainage, car parks, street lighting, footpaths, cycle ways, detailed quantity and cost estimation, development of engineering specifications, traffic management, public domain, open space and assessment of development applications.

What you'll need to succeed

Degree in Civil Engineering.

Extensive experience in formulating and implementing engineering designs related to infrastructure.

Experience in Safer by Design Assessments and road safety audits.

Proven ability to design using autoCAD.

What you'll get in return

Permanent Role - Greater Western Sydney

\$103k + Super + Civil liability @ 3.5%

Supportive managerial structure + flexible working
